3. SUMMARY OF WHAT WE BUILT & HOW IT WAS CREATED

- * The Aesthetic: Deep matte jet-black background (#000000), warm cream titles (#E2C9A5), gold accents (#D6AB66), mossy greens (#4E693B), and aged barnwood (#3B2412).
- * Pure & Lightweight Tech Stack: Clean semantic HTML5, Tailwind CSS via CDN, Lucide Icons, and vanilla JavaScript. Zero build tools or npm dependencies needed to run.
- * E-Commerce Engine: Full localStorage shopping basket, customer delivery form in drawer, promo discount code engine (HARVEST10 for 10% off), and 1-click WhatsApp order dispatch.
- * Marketing & SEO: Google Schema.org JSON-LD local business data, OpenGraph social cards, sitemap.xml, robots.txt, and a floating WhatsApp quick inquiry button.

COMPLETE FILE MAP & VERCEL DEPLOYMENT GUIDE

4. COMPLETE FILE MANIFEST & WHAT EACH FILE DOES

index.html : Homepage with hero, featured products, tours, farm philosophy & mood ticker.
shop.html : Farm Shop with category filter pills, price sorting, and search bar.
visit.html : Farm Visits page for booking workshops, tours, and foraging sessions.
wholesale.html : B2B wholesale ordering for hotels, cafes, and zero-waste retailers.

about.html : Valley Springs Farm story, chemical-free philosophy, and founder note.
contact.html : Contact information, interactive FAQs accordion, and location map.
404.html : Branded woodland error page when someone navigates to a broken link.
assets/js/data.js : CENTRAL DATABASE - products, prices, descriptions, ingredients, FAQs.
assets/js/cart.js : CART ENGINE - basket state, delivery form, promo code, WhatsApp order.
assets/js/main.js : UI SCRIPTS - dark product quick-view modal, mobile menu, navigation.
assets/css/custom.css : STYLING - custom dark rustic barnwood & red soil theme tokens.
vercel.json : VERCEL CONFIG - cleanUrls, edge caching, and HTTP security headers.
sitemap.xml : Search engine indexing map for Google, Bing, and Yahoo bots.
robots.txt : Search engine crawler permissions directive.

5. WHAT WE USED VERCEL FOR & HOW TO DEPLOY

- * Free High-Speed Global Hosting: Vercel serves your site across global edge networks.
- * Clean URLs: Automatically turns '/shop.html' into professional '/shop'.
- * Free Automatic SSL/HTTPS: Adds the security padlock to your domain.
- * Custom Domain Setup: Connects 'purreinsfrequency.com' with 1 click in Vercel dashboard.

HOW TO PUBLISH IN 60 SECONDS:

1. Open your browser and navigate to: <https://vercel.com/new>
2. Drag and drop the 'purreins-frequency' folder directly onto the upload area.
3. Click 'Deploy'. Your site is instantly live with a public URL!

6. HOW TO REQUEST CHANGES FROM ANTIGRAVITY

Whenever you want changes, simply come back to this chat and say:

- 'Add a new product [Name, Price, Category] to the shop'
- 'Create a new bundle promotion or update pricing'
- 'Write a wholesale cold email pitch for local cafes or hotels'

Antigravity will execute the code changes and verify them immediately.
